

Sociology PhD student featured in Washington Post

08/31/2020

Max Roberts

Sociology PhD Student Max Roberts was recently interviewed by the Washington Post about a recent paper he and faculty members Sojung Lim and Eric Reither published in Scientific Reports titled *Contributors to the black-white life expectancy gap in Washington D.C.*

The Washington Post article, titled *Black men in D.C. are expected to die 17 years earlier than White men. Here's why.*, highlights the USU Scientific Reports article as its centerpiece.
